

CDS Group, established in 1983, is widely regarded as the world's leading supplier of advanced process, thermal, drying and curing systems for the ceramics, concrete, biomass and allied industries.

Based in Stoke-on-Trent, England, CDS specialises in the design, manufacture, supply and installation of "bespoke" individually designed systems and equipment to provide the customer with the 'optimal' solution to their requirements.

CDS Group are continually at the forefront in developing and utilising alternative technologies in the world of thermal treatment. This is apparent in our commitment to research, development and implementation of our latest patented technology "R-02", which is fast becoming an industry standard.

CDS Group encompasses the following divisions.

CDS
CERAMICS

CDS
CONCRETE

CDS
PROJECTS

CDS
GLASS & KILNS

CDS
BIODRI

CDS provide a fully comprehensive service to industry, from conceptual design through to project completion and after-sales service. Accredited to ISO9001 / 2000 and with sales and regional offices in U.S.A, China, Brazil, Thailand and India, CDS Group has a global reputation and presence that puts it at the forefront of customer care and attention to detail.
